Dear Parents, Guardians, Families, and Community Members,

In light of our current situation due to COVID 19, the 2020 year has brought about many changes and adjustments, not only in education, but in our daily lives.

In order to rise to the challenge of these new changes, we have come up with an idea to provide a virtual career fair for our students.

We are asking any parent, guardian, family member, or community to submit a 10-15 minute video of themselves working at their job. If you do not want yourself or others in the video, you could record your office or location of employment and speak about your job. The important information to share with elementary students would be things such as:

- Do you work inside or outside?
- What skills do you need to do your job?
- What education (High school diploma, college degree, technical school, apprenticeship) is required to perform your duties?
- Are there any special tools or equipment your job requires?
- If possible, a starting salary for your field of employment.

As videos are submitted, I will compile a library of the videos with different careers. We will share with the students throughout the school year depending on what they are learning at the time and what they are interested in.

This activity will be so fun for the students! Because it is virtual, I am hoping we get a wide variety of careers they can learn about.

If you are interested in submitting a video, please contact me and I will provide you more information.

Thank you so much for your support!
